Council

**A WASTE FACILITY PERMIT
GRANTED BY:**

FINGAL COUNTY COUNCIL

GRANTED ON

8th June 2022

TO

WILTON WASTE HOLDINGS LIMITED

TRADING AS

O'REILLY RECYCLING LTD.

**FOR A FACILITY AT
UNIT 30, ROSEMOUNT BUSINESS PARK,
BLANCHARDSTOWN, DUBLIN 15.**

WASTE FACILITY PERMIT WFP-FG-18-0002-02

GENERAL	3
Interpretation	5
CONDITION 1: SCOPE	6
CONDITION 2: MANAGEMENT OF THE ACTIVITY	8
CONDITION 3: RECORD KEEPING AND REPORTING	10
CONDITION 4: SITE INFRASTRUCTURE	16
CONDITION 5: WASTE HANDLING	18
CONDITION 6: ENVIRONMENTAL PROTECTION AND EMISSIONS MONITORING	23
CONDITION 7: ACCIDENT PREVENTION AND EMERGENCY RESPONSE	26
CONDITION 8: CHARGES AND FINANCIAL PROVISIONS	28
CONDITION 9: DECOMMISSION AND AFTERCARE	29
APPENDIX 1: FACILITY LAYOUT	30
APPENDIX 2: EXISTING SITE DRAINAGE PLAN	31

GENERAL

Waste Facility Permit WFP-FG-18-0002-01 granted to O'Reilly Recycling Limited on 6th September 2019 is transferred to Wilton Waste Holdings Ltd trading as O'Reilly Recycling Limited herein after called the 'permit holder' subject to the following (9) conditions.

Address:	Kiffa
	Crosserlough
	Ballyjamesduff
	Co. Cavan

Operating a facility at:

Address:	Unit 30
	Rosemount Business Park
	Blanchardstown
	Dublin 15

Issued on:

Date:	8th June, 2022
--------------	----------------------------------

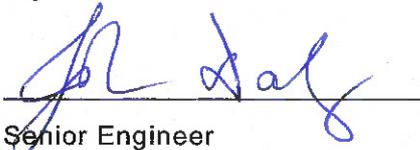

Expires on:

Date:	5th September, 2024
--------------	---------------------------------------

With reference to Planning Permission FW16A/0141 (final grant order PF/0547/17) and subject to the attached schedule of conditions, this waste facility permit and attached conditions supersedes the previous waste facility permits WFP-FG-12-0002-02 and WFP-FG-18-0002-01.

Fingal County Council may at any time review, and subsequently amend conditions of, or revoke this permit.

Signed:

Senior Engineer

Environment and Water Services Department

Fingal County Council

Date: 8 June 2022,

Part 1 Activities Permitted

In pursuance of the powers conferred on it by the Waste Management Act, 1996, as amended, the Waste Management (Facility Permit and Registration) Regulations, 2007 (S.I. No.821 of 2007) as amended by the Waste Management (Facility Permit and Registration) (Amendment) Regulations (S.I. No.86 of 2008) and the Waste Management (Facility Permit and Registration) (Amendment) Regulations (S.I. No. 320 of 2014) and the Waste Management (Facility Permit and Registration) (Amendment) Regulations (S.I. No. 546 of 2014) and the Waste Management (Facility Permit and Registration) (Amendment) Regulations (S.I. No. 198 of 2015) and the Waste Management (Food Waste) (S.I. 508 of 2009) Regulations, 2009 and the European Union (Household Food Waste and Bio-waste) Regulations 2013 (S.I. No. 71 of 2013) as amended by the European Union (Household Food Waste and Bio-Waste) (S.I. 191 of 2015) Regulations 2015 and the European Communities (Waste Directive) Regulations, 2011 (S.I. No. 126 of 2011) herein after called the legislation this permit is granted under Article 27 of the Waste Management (Facility Permit and Registration) (S.I. No. 821 of 2007) Regulations, 2007 as amended to Wilton Waste Holdings Limited, Kiffa, Crosserlough, Ballyjamesduff Co. Cavan.

Permitted Activities in accordance with the Fourth Schedule, (Recovery Operations) of the Waste Management Act 1996 as amended and substituted

No.	Description
R4	Recycling/reclamation of metals and metal compounds

Permitted Activities in accordance with the Third Schedule, Part 1 of the Waste Management (Facility Permit and Registration) Regulations S.I. No. 821/2007, as amended

Class No.	Class Description
4 (excluding untreated ELV and WEEE)	<p><i>The Principal Activity:</i> The reception, storage and recovery of scrap metal, including scrap metal arising from end-of-life vehicles, waste vehicles (other than end-of-life vehicles) and WEEE where scrap metal from –</p> <ul style="list-style-type: none"> a. end-of-life vehicles shall be subject to appropriate treatment and recovery in accordance with the provisions of articles 14 and 15 of the Waste Management (End-of-Life Vehicles) Regulations 2006 (S.I. No. 282 of 2006) prior to acceptance at the scrap metal facility, and as appropriate, b. waste vehicles (other than end-of-life vehicles) shall be subject to appropriate treatment and recovery having regard to the provisions of articles 14 and 15 of the Waste Management (End-of-Life Vehicles) Regulations 2006 (S.I. No. 282 of 2006) prior to acceptance at the scrap metal facility, and as appropriate, c. WEEE shall be subject to appropriate treatment and recovery in accordance with the provisions of articles 20, 21 and 22 of the Waste Management (Waste Electrical and Electronic Equipment) Regulations 2005 (S.I. No. 340 of 2005) prior to acceptance at the scrap metal facility. <p>(No scrap metal from untreated end-of-life vehicles, waste vehicles (other than end-of-life vehicles) and WEEE proposed)</p>

9	The reception, temporary storage and recovery of batteries and accumulators where- <ul style="list-style-type: none">(a) from 26th September 2008, the treatment and recycling of used batteries and accumulators meets the requirements of Article 12 of Directive 2006/66/EC on batteries and accumulators and waste batteries and accumulators, and(b) the annual intake shall not exceed 1,000 tonnes.
---	---

Interpretation

All terms in this permit should be interpreted in accordance with the definitions in the Waste Management Acts 1996, as amended.

CONDITION 1: SCOPE

- 1.1 This waste facility permit is issued by Fingal County Council under the Waste Management (Facility Permit & Registration) Regulations S.I No. 821 of 2007, as amended.
- 1.2 This waste facility permit is for the purpose of waste activity authorisation under the Waste Management (Facility Permit & Registration) Regulations S.I No. 821 of 2007, as amended and nothing in this permit shall be construed as negating the permit holders statutory obligations, or requirements under any other enactments or regulations.
- 1.3 This waste facility permit is granted to Wilton Waste Holdings Limited for the waste activities listed and described in Part 1 Activities Permitted only and shall be as set out in the permit application or as modified under Condition 1.8 of this permit and subject to the conditions of this permit.
- 1.4 This waste facility permit is granted for a period of no more than **5** years and expires on 5th September, 2024.
- 1.5 Should the permit holder wish to continue to operate after the date of expiry an application to review the facility permit shall be made to the Council in accordance with article 31(1) of the Regulations no later than 60 working days before the date of expiry of the permit.
- 1.6 Should the permit holder wish to cease to continue waste activities on or after the date of expiry of the facility permit it shall by notice in writing to the Council surrender the facility permit under Article 29 of the above mentioned Regulations.
- 1.7 A facility permit shall not be deemed surrendered until the permit holder has satisfied Fingal County Council that the facility is not causing or likely to cause environmental pollution. The permit holder will be required to comply with any conditions imposed by the Council as part of the surrendering of the waste facility permit.
- 1.8 For the purposes of this facility permit, the facility authorised is the area of land outlined in red on drawing number DWG 2066-02, 'Facility Layout - Plan & Cross Section of Site' dated 20th September 2016 (See Appendix 1) submitted with the waste facility permit application. Any reference in this permit to "facility" shall mean the area thus outlined in red on this drawing. The authorised activity shall be carried on only within the area outlined.
- 1.9 The permit holder shall notify Fingal County Council in writing of any proposed changes in the information furnished in the application process and shall obtain written approval from Fingal County Council prior to these changes occurring/taking effect.
- 1.10 Any proposed changes in the activity shall be submitted in writing to Fingal County Council for consideration and agreement prior to that change taking effect. Should the submission identify a material or significant change in;
 - (a) the nature, extent or focus of the waste activities;
 - (b) the nature or extent of any emission;a facility permit review application may be required before the proposed change can be assessed. Fingal County Council reserves the right to review and/or revoke this permit at any time and shall give written notice to the permit holder in such an event.
- 1.11 The permit holder shall be responsible and ensure that the facility is managed, operated and maintained to a high standard and that emissions are controlled as submitted with the permit application and in strict accordance with the conditions set down within this permit. The permit holder shall establish procedures to ensure that corrective/preventative action is taken should any condition of this permit not be complied with. Fingal County Council shall be notified of any such breach by telephone/fax by the next working day and full details shall be forwarded in writing *within 3 working days*.

- 1.12 The permit holder shall ensure that the facility is compliant with the objectives of the relevant Regional Waste Management Plan and the National Hazardous Waste Management Plan as required.
- 1.13 In order to facilitate recycling and recovery of waste the permit holder shall not dispose of waste which has previously been collected in source segregated form. Similarly the permit holder shall not collect, transport, handle or mix waste in a manner so as to make it unsuitable for recycling or recovery.
- 1.14 Any non-conformance with the conditions of this permit are an offence under the Waste Management (Facility Permit & Registration) Regulations 2007 as amended by the Waste Management (Facility Permit and Registration) (Amendment) Regulations, 2008 (S.I No.86 of 2008).
- 1.15 Where Fingal County Council considers that a non-compliance with the conditions of this permit has occurred, it may serve notice on the permit holder. The permit holder shall comply with the requirements of such notice within the time-scale specified in the notice. Written confirmation shall be furnished to Fingal County Council upon receipt of a notice and when the requirements of the notice have been complied with.
- 1.16 Fingal County Council may at any time make an amendment to this permit of a technical or clerical nature under Article 26 of the Waste Management (Facility Permit and Registration) Regulations, 2007 as amended.

REASON: To clarify the scope of this permit

CONDITION 2: MANAGEMENT OF THE ACTIVITY

- 2.1 The permit holder shall employ a suitable qualified and experienced facility manager who shall be designated as the person in charge. The facility manager or a nominated, suitably qualified and experienced deputy shall be present at the facility at all times during its operation. The permit holder shall ensure the Facility Manager and/or the Deputy shall be available on site to meet with authorised persons of Fingal County Council at all reasonable times.
- 2.2 The facility shall be adequately manned and supervised at all times. It should be maintained to the satisfaction of Fingal County Council and adequate precautions shall be taken to prevent unauthorised access to the site.
- 2.3 The activities shall be managed and operated:
- (a) in accordance with an environmental management system (EMS), which identifies and minimises risks of environmental pollution, including those risks arising from operations, maintenance, accidents, incidents, non-conformances and closure aspects and those drawn to the attention of the operator as a result of complaints received; and
 - (b) By sufficient persons who are competent in respect of the responsibilities to be undertaken by them in connection with the operation of the facility and the undertaking of specified activities. Personnel performing specifically assigned tasks shall be qualified on the basis of appropriate training, education and experience and shall be aware of the requirements of this permit. In addition, the facility manager and his/her deputy shall successfully complete a waste management training programme and/or site operatives training programme or an equivalent training programme agreed in writing by Fingal County Council to ensure that the site is managed effectively and efficiently and that all emissions are controlled as set down in this permit.
- 2.4 The permit holder shall ensure that all staff, employees and agents, including replacement personnel and contract personnel, are fully aware of all provisions and conditions of this permit and are provided with a copy of this permit.
- 2.5 Within two months from the date of grant of this permit the permit holder shall submit written details of the management structure of the facility and maintain a copy at the site.
- 2.6 The permit holder shall establish and maintain Awareness and Training Procedures for identifying training needs and for providing appropriate up to date training for personnel whose work is related to the permitted facility. Appropriate written records of training shall be maintained.
- 2.7 The permit holder shall establish corrective/preventative action procedures which shall be followed when any condition of this permit is not complied with.
- 2.8 On receipt of this permit, the permit holder shall develop procedures for the following,
- (a) waste inspection procedures;
 - (b) waste quarantine procedures;
 - (c) waste acceptance and handling procedures to include waste batteries. A copy of this procedure shall be submitted to Fingal County Council and agreed in writing prior to the acceptance of waste batteries;
 - (d) other appropriate procedures and arrangements relating to the acceptance of waste e.g. hazardous waste risk assessments;
 - (e) waste sampling, analysis and characterisation procedures;
 - (f) requirements for the pre-treatment of wastes;

- (g) waste rejection and notification procedures
- (h) weighbridge maintenance procedure (including procedure for breakdown and service);
- (i) emergency response procedures;
- (j) accident prevention procedures;
- (k) vehicle refuelling procedures;
- (l) waste stockpile management procedure;
- (m) housekeeping procedures including yard management.

2.9 The permit holder shall develop an Environmental Management System and associated Environmental Management Plan (EMP) for the facility and the associated waste activities on site within 6 months of the date of grant of this permit.

2.10 The site may operate between the hours of 8am to 6pm Monday to Friday and between 8.30am and 1.30 pm on Saturdays unless otherwise agreed with Fingal County Council. The facility will be closed on Sundays and Bank Holidays.

2.11 Waste shall be only stored, handled or sorted in accordance with the terms of this permit. .

2.12 All waste deposited at the facility shall be inspected, assessed, weighed and recorded at the weighbridge before being deposited either;

- i. into a skip (temporarily);
- ii. into a receptacle for recovery;
- iii. into a designated processing area;
- iv. into a designated storage area;
- v. in the case where inspection is required into a designated inspection area.

2.13 Any container/area, as described in Condition 2.12 utilised for the temporary placement of waste shall be maintained to prevent the release of emissions during storage, delivery and removal off-site.

2.14 The permit holder shall establish and maintain a programme for maintenance/service of all plant and equipment that is detailed in the permit application based on the instructions issued by the manufacturer/supplier or installer of the equipment.

2.15 The permit holder shall notify Fingal County Council in writing within 1 working day of the weighbridge malfunctioning or becoming non-operational.

2.16 The permit holder shall comply with the requirement of the following regulations:

- S.I No. 400/2017, Waste Management (Tyres and Waste Tyres) Regulations 2017.
- S.I No. 283/2014 European Communities (Batteries and Accumulators) Regulations 2014.
- S.I No. 281/2014 European Communities (End-of-Life Vehicles) Regulations 2014.

REASON: To make provision for the proper management of the activity
--

CONDITION 3: RECORD KEEPING AND REPORTING

3.1 Unless otherwise agreed with the Local Authority, all written communications, including reports and notifications related to this permit, shall be submitted to the local authority as follows:

To:	Senior Engineer
Address of Local Authority	Environment and Water Services Department, Fingal County Council, County Hall, Main Street, Swords, Co. Dublin.
Telephone No. (normal working hours)	01-8905000
Email	environment@fingal.ie

On-site records

3.2 The permit holder shall ensure that a *copy* of this waste facility permit is retained on site, in an easily accessible location, at all times. A copy of this permit shall be issued by the permit holder to all relevant personnel whose duties relate to any condition within it. The permit holder shall maintain a *written register* of personnel/leasees who receive a copy of this waste facility permit.

3.3 The permit holder shall ensure that a copy of the Facility Layout Plan (DWG 2066-02, 'Facility Layout - Plan & Cross Section of Site' – See Appendix 1) and the Site Drainage Plan (DWG 2006-04, 'Existing Site Drainage Plan' – See Appendix 2) are retained on site in an easily accessible location, at all times. The layout plan shall include the following;

- (a) site boundary;
- (b) ordnance survey sheet reference number(s);
- (c) elevation levels (metres) and Ordnance datum;
- (d) dimensions (metres);
- (e) orientation of north point; and
- (f) location of monitoring and sampling points (if applicable)
- (g) surface water and foul drainage layout;
- (h) vehicle storage layout (internal and external);
- (i) depollution area layout including storage areas for any waste oils/liquids and any other waste materials.

Waste Acceptance and Handling procedure

3.4 The permit holder shall maintain a register in relation to the activity to which the waste facility permit relates, which shall be available for inspection by the local authority. An

electronic copy of the register shall be forwarded to Fingal County Council quarterly. The register shall detail the following:

- (a) The dates and time of all waste delivered to and dispatched from the facility;
- (b) Names of the carriers, including details of vehicle registrations and waste collection permit numbers for authorised collectors;
- (c) Where a customer is exempt from the requirement to hold a waste collection permit, details of the nature of the business to which the waste is incidental, a company registration or VAT number and details/proof of why the exemption applies under Article 30 of S.I No 820/2007 the Waste Management (Collection Permit) Regulations 2007;
- (d) The origin/source address of each delivery of waste before entry to the facility;
- (e) The quantities and composition of each waste consignment, (European List of Waste (LoW) Code(s) and description(s) pursuant to Commission Decision 2014/955/EC of 18th December, 2014 and subsequent amendments received at the facility and before a consignment of waste leaves the facility respectively;
- (f) The quantities and composition of wastes rejected at the facility, and details of where they were diverted to;
- (g) The quantities, composition and destination of waste consigned for onward transport from the facility together with documentary evidence of acceptance/treatment/disposal at the destination facility;
- (h) Details of all facilities, including permit/licence numbers, which are being used to receive such waste;
- (i) Details of scrap metal purchased and amount paid;

This condition shall apply to all waste streams to be accepted at the facility as outlined under Table 1 'Types and quantities of permissible wastes to be handled at the facility'. The permit holder is required to maintain written records in compliance with Condition 3.5 below

3.5 The permit holder shall ensure that only authorised waste collectors and/or trades persons with a valid company registration and VAT number are allowed entry to the facility to allow waste to be deposited for the purposes of disposal and/or recovery as per the waste activities listed and described in Part 1 (Activities Permitted) only. No entry is permitted by members of the public.

3.6 To ensure full traceability of all waste and in compliance with S.I No.320/2014, Waste Management (Facility Permit and Registration)(Amendment) Regulations 2014, the permit holder shall;

- (a) Require the production of proof of identity of the authorised person or tradesperson supplying the material, such proof being:
 - (i) a valid passport, or
 - (ii) a current Irish driving licence or learner driver permit or
 - (iii) a Public Services Card issued by the Department of Social Protection.
- (b) Require the production of proof of current address of the authorised person or trades person supplying the material such proof being:

- (i) a current utility bill addressed to that person at their stated address,
 - (ii) a document issued by a Government Department addressed to that person at their stated address within the previous three months,
 - (iii) a current car or home insurance policy addressed to that person at their stated address, or
 - (iv) a current Tax Credit Certificate or Tax Clearance Certificate issued by the Office of the Revenue Commissioners to that person at their stated address.
- (c) Maintain records of the name, identity, company name, registration number and where appropriate, Waste Collection Permit of the delivery vehicle.
 - (d) Maintain a description and weight of the materials, time and date of sale and amount paid.
 - (e) Require a statement signed by the person supplying the material that they are the lawful owner of the material or have the consent of the lawful owner to sell the material.

This condition shall apply to all waste streams to be accepted at the facility as outlined under Table 1 'Types and quantities of permissible wastes to be handled at the facility'.

3.7 The permit holder shall compile and maintain specified records in a specified format agreed with the local authority for a period of not less than 7 years in relation to the activity to which the permit relates including:

- (a) the types and quantities of waste dealt with in the course of business (including European List of Waste (LoW) Code(s) and description(s) pursuant to Commission Decision 2014/955/EC of 18th December, 2014 and subsequent amendments, and
- (b) the treatment, recovery or disposal activities to which the waste is subject, including the compilation of commercial documentation for all collected waste deposited at the facility.

3.8 All written communication, reports etc. shall:

- (a) Be formatted in accordance with any written instruction or guidance issued by Fingal County Council;
- (b) Include whatever information as is specified in writing by Fingal County Council;
- (c) Be submitted in accordance to the relevant reporting frequencies specified in this permit;
- (d) Be accompanied by a written interpretation setting out their significance against relevant quality standards in the case of all monitoring data;
- (e) Be transferred electronically to Fingal County Council's computer system in an agreed standard format if required by Fingal County Council.
- (f) Be held at the facility for a period of 7 years. Some records can be maintained electronically subject to the prior written agreement of Fingal County Council.

Annual Report (AR)

3.9 The permit holder shall submit an annual report (AR) by the specified deadline to Offaly County Council as the National Waste Collection Permit Office (NWCPO) via the online web portal (<https://ar.nwcpo.ie/>) for waste facility annual reports. The permit holder shall submit any additional information in relation to the AR as required by Fingal County Council within the specified timeframe and in a format that has been approved by Fingal County Council. The online return shall contain the following information:

- (a) the tonnages and List of Waste (LoW) codes for the waste materials imported and/or sent off-site for disposal/recovery within the reporting year. All LoW codes recorded for each load by the Waste Facility Permit Holder shall correspond with the LoW code recorded by the Waste Collection Permit Holder bringing waste to or removing waste from the facility;
- (b) the names of the agent and carrier/collector of the waste, and their waste collection permit details (to include issuing authority and vehicle registration number);
- (c) the quantity (in tonnes), type and composition of all wastes accepted at the site during year;
- (d) the destination of all wastes accepted and recovered/disposed of at the facility during the year and the method of treatment of the waste at each individual facility;
- (e) in relation to each destination facility a breakdown of the amount of waste recovered and waste disposed of during the reporting period;
- (f) a summary of current processed waste stored at the facility.

3.10 The online return shall be submitted to the NWCPO on or before the 28th February each year with any additional information (if required by Fingal County Council) to be sent electronically to environment@fingal.ie or by post to the Senior Engineer, Environment and Water Services Department, Fingal County Council, County Hall, Swords, Co. Dublin. The completed annual online return shall relate to waste activities in the preceding calendar year or part thereof as the case may be.

In addition, the AR, which shall be to the satisfaction of the local authority, shall include as a minimum the following information and shall be prepared in accordance with the relevant guidelines issued by the NWCPO and Fingal County Council:

- (a) a summary of compliance with all the conditions attached to the permit;
- (b) the management and staffing structure of the site;
- (c) training records for all staff, see Condition 2.3(b);
- (d) any court order or conviction against the permit holder under the Act;
- (e) any loads rejected at the site;
- (f) evidence of registration as a waste broker with the Trans Frontier Shipment Office (TFS) in accordance with the Waste Management (Registration of Brokers and Dealers) Regulations 2008 (S.I. No. 113 of 2008);
- (g) reportable incidents during the reporting year;
- (h) all complaints received during the reporting year;
- (i) schedule of required environmental improvements on the site for the reporting year;

- (j) development/improvement works undertaken during the reporting period;
- (k) management, inspection and maintenance records for the drainage system;
- (l) management, inspection and maintenance records relating to bunding/spill containment systems;
- (m) maintenance records and calibration certificates for the weighbridge;
- (n) maintenance records of all plant and equipment;
- (o) a summary of all monitoring results including interpretation against relevant quality standards over the associated 12 month period;
- (p) copies of current insurance policy documentation held under Condition 8.5;
- (q) a report on any amendments made to the agreed Decommissioning and Aftercare Management Plan as per Condition 9.3.

Any other items specified by Fingal County Council.

Incidents

- 3.11 The permit holder shall, as soon as practicable, and in any event within 2 hours of an incident at the facility which has potential implications as set out below notify Fingal County Council by telephone only as per Condition 3.1 when an incident;
- (a) has the potential for environmental contamination of surface water or ground water, or
 - (b) poses an environmental threat to air or land, or
 - (c) requires an emergency response by the local authority or is classified as an emergency.

Full details of the incident shall be forwarded in writing on the next working day. The permit holder shall include as part of this notification:

- (a) the date and time of incident, or when incident was noticed;
- (b) details of the incident and the causes or potential causes of it;
- (c) an evaluation of environmental pollution caused, if any;
- (d) actions taken to minimise the effect on the environment;
- (e) steps taken to avoid reoccurrence;
- (f) details of any site investigations instigated by the permit holder;
- (g) any other remedial action taken.

The permit holder shall make a record of any such incident in a register to be maintained at the facility.

Complaints

- 3.12 The permit holder shall maintain on the site a register of all complaints received relating to the operation of the activity. Each such complaint entry in the register should give details of the following:

- (a) time and date of the complaint;
- (b) the name, address and telephone number of the complainant;
- (c) details of the nature of the complaint;
- (d) details of any investigation undertaken in relation to the complaint
- (e) corrective/preventative actions taken to deal with the complaint, and the results of such actions;
- (f) the response made to each complainant.

After the receipt of a complaint, the local authority shall be notified in writing as soon as possible and in any event not later than five working days of receipt of the complaint. A copy of the written response(s) to each complaint shall be forwarded to Fingal County Council.

General

- 3.13 Where conditioned under this permit that notification is given in writing of proposed monitoring and/or spot sampling being undertaken, the permit holder shall inform Fingal County Council when the monitoring is to take place. This notice shall be 14 days in advance of the monitoring unless otherwise agreed by Fingal County Council.
- 3.14 Where the permit holder is convicted of any offence, prescribed under article 19(3) (a) of the Waste Management (Facility Permit and Registration) Regulations 2007, as amended, the operator shall inform Fingal County Council within 7 days of the conviction, including information in relation to the court hearing the case, the nature of the offence and any penalty or requirement imposed by the court.
- 3.15 The permit holder shall inform the Local Authority in writing when an activity authorised under Condition 5 ceases at the facility, within 1 week of the activity ceasing. The permit holder shall provide a summary of compliance with all conditions relating to that activity with reference to the information contained in the registers described above.
- 3.16 The permit holder shall notify Fingal County Council in writing within 14 working days of the occurrence of the following matters, except where such disclosure is prohibited by Stock Exchange rules:
 - a. any change in the permit holder's trading name, registered name or registered office address; or
 - b. any change to particulars of the permit holder's ultimate holding company (including details of an ultimate holding company where an operator has become a subsidiary); and
 - c. any steps taken with a view to the permit holder going into administration, entering into a or being wound up shall be notified to Fingal County Council within 1 week of the decision.

<p>REASON: To make provision for the notification of incidents, to update information on the activity and to provide for the keeping of proper records</p>
--

CONDITION 4: SITE INFRASTRUCTURE

4.1 The permit holder shall establish all infrastructure referred to in the waste permit and waste permit application within 3 months of receipt of this waste facility permit or as required by the conditions of this waste permit.

Facility Notice Boards

4.2 The permit holder shall provide and maintain a Facility Notice Board at the facility entrance so that it is legible to persons outside the main entrance to the facility. The minimum dimensions of the board shall be 1200 mm by 750 mm. or as otherwise agreed with the Planning Department of Fingal County Council

The board shall clearly show:-

- (a) the name and telephone number of the facility;
- (b) the normal hours of opening/operation;
- (c) the name of the licence holder;
- (d) an emergency out of hours contact telephone number;
- (e) the permit reference number; and
- (f) where environmental information relating to the facility can be obtained.

4.3 A plan of the facility clearly identifying the location of the waste drop-off and storage areas shall be displayed as close as possible to the entrance to the facility. The plan shall be displayed on a durable material such that it is legible at all times. The plan shall be replaced as material changes are made.

Traffic Management; access and operation

4.4 There shall be no casual public access to the facility.

4.5 The permit holder shall ensure that no skips or vehicles shall be parked outside the boundary of the site.

4.6 The number of vehicles entering the facility shall be limited to 18 per day in and out unless otherwise agreed with Fingal County Council.

Surfaces

4.7 The permit holder shall maintain an impermeable surface throughout the facility except landscaped areas.

Water Management

4.8 No foul drainage shall discharge into surface water.

4.9 The water supply and drainage arrangements, including the disposal of surface water shall be in accordance with the technical requirements of Fingal County Council to ensure full compliance with Planning Permissions FW11A/0106, FW12A/0103 FW16A/0141 (final grant order PF/0547/17).

4.10 No surface water/rainwater shall discharge into the foul sewer system.

4.11 Any refuelling on site shall be from fully bunded fuel tanks only.

Facility Security

4.12 CCTV will be operational and maintained at the site.

Facility Office

4.13 The permit holder shall maintain an office at the facility. The office shall be constructed and maintained in a manner suitable for the processing and storing of documentation.

4.14 The permit holder shall provide and maintain a working telephone and a method for electronic transfer of information at the facility.

Waste Inspection and Quarantine

4.15 The permit holder shall provide and maintain an inspection and quarantine area which should be covered and bunded for the materials held on the facility, to comply with the conditions of this permit. All drainage from this bunded area shall be treated as hazardous waste unless it can be demonstrated to be otherwise, and shall be diverted for collection and safe disposal.

Weighbridge

4.16 The permit holder shall maintain a weighbridge at the facility to accurately record weights of waste entering the facility and weights of waste leaving the facility. A service contract (with 48 hours maximum response in the event of a breakdown) for the weighbridge shall be put in place and maintained and submitted to the Council as per Condition 2.8(h).

4.17 The permit holder shall provide and maintain documentary evidence of the regular maintenance and calibration of the weighbridge in accordance with Condition 3.10(m).

REASON: To provide appropriate infrastructure for the protection of the environment

CONDITION 5: WASTE HANDLING

Permitted Wastes

5.1 The permit holder shall ensure that only wastes permitted at this facility are accepted unless otherwise agreed with Fingal County Council. The permissible wastes are presented in Table 1 below. The listing is by (by List of Waste Code (LoW) and description(s) of material pursuant to Commission Decision 2014/955/EC of 18th December, 2014 or subsequent amendments.

Table 1 Types and Quantities of permissible wastes to be handled at the facility

LoW Code	Source of Waste	Description of Waste	Quantity per annum (Tonnes)
11 05 01	Wastes from thermal processes	Hard zinc waste from hot galvanising processes	
11 05 02	Wastes from thermal processes	Zinc ash from hot galvanising processes	
15 01 01	Waste packaging, absorbents, wiping cloths, filter materials and protective clothing not otherwise specified.	Paper and cardboard packaging	
15 01 02	Waste packaging, absorbents, wiping cloths, filter materials and protective clothing not otherwise specified.	Plastic packaging	
15 01 03	Waste packaging, absorbents, wiping cloths, filter materials and protective clothing not otherwise specified.	Wooden packaging	
16 01 03	Wastes not otherwise specified in the list	End-of-life tyres	
16 01 17*	Wastes not otherwise specified in the list	Ferrous metal	
16 01 18*	Wastes not otherwise specified in the list	Non-ferrous metal	
16 02 14	Wastes not otherwise specified in the list	Discarded equipment other than those mentioned in 16 02 09 and 16 02 13	

16 02 16	Wastes not otherwise specified in the list	Components removed from discarded equipment (non-hazardous)	
16 08 01	Wastes not otherwise specified in the list	Spent catalysts containing gold, silver, rhenium, rhodium, palladium, iridium or platinum	
17 04 01	Construction and demolition wastes (including excavated soil from contaminated sites).	Copper, bronze, brass	
17 04 02	Construction and demolition wastes (including excavated soil from contaminated sites).	Aluminium	
17 04 03	Construction and demolition wastes (including excavated soil from contaminated sites).	Lead	
17 04 04	Construction and demolition wastes (including excavated soil from contaminated sites).	Zinc	
17 04 05	Construction and demolition wastes (including excavated soil from contaminated sites).	Iron and steel	
17 04 07	Construction and demolition wastes (including excavated soil from contaminated sites).	Mixed metals	
17 04 11	Construction and demolition wastes (including excavated soil from contaminated sites).	Cables other than those mentioned in 17 04 10	

19 12 02	Wastes from the mechanical treatment of waste (e.g. sorting, crushing, compacting, pelletising) not otherwise specified.	Ferrous metal	
19 10 04	Wastes from the mechanical treatment of waste (e.g. sorting, crushing, compacting, pelletising) not otherwise specified.	Fluff light fraction and dust other than mentioned in 19 10 03	
19 12 03	Wastes from the mechanical treatment of waste (e.g. sorting, crushing, compacting, pelletising) not otherwise specified.	Non-ferrous metal	
20 01 40	Municipal waste (household waste and similar commercial, industrial and institutional wastes) including seperately collected fractions.	Metals (municipal)	
16 06 01*	Wastes from inorganic processes	Batteries – lead batteries	1,000
TOTAL			8,965 tonnes

5.2 The Permit Holder shall **not** accept scrap metal or other metal waste arising from end-of-life vehicles at this facility, unless these metals were subjected to prior treatment at an authorised end-of-life vehicle treatment facility. This prior treatment shall be in accordance with the provisions of Article 15 and the Second Schedule of the Waste Management (End-of-Life Vehicles) Regulations, 2006.

5.3 Waste batteries shall only be accepted from either

- (a) authorised waste collection permit holders or
- (b) an end user of the waste battery

in accordance with Planning Permission reference FW16A/0141.

Waste Acceptance/Storage

- 5.4 Waste arriving at the facility shall be inspected at the point of entry to the facility and subject to this inspection, weighed and directed to the warehouse for sorting, grading, bailing and packing.
- 5.5 Waste accepted at the facility shall be delivered by commercial customers holding a valid waste collection permit only and which have been subject to waste profiling and waste characterisation off-site as outlined in the waste facility permit application.
- 5.6 The loading and unloading of materials excluding batteries shall be carried out in areas as designated in as outlined in Drawing DWG 2066-02, 'Facility Layout - Plan & Cross Section of Site' dated 20th September 2016 (see Appendix 1) submitted with the waste facility permit application.
- 5.7 The storage of batteries shall be in suitable containers for hazardous waste. The storage of batteries is permitted inside the warehouse only.
- 5.8 Waste that may generate dust and become easily airborne shall be stored in closed containers within the building.
- 5.9 The permit holder shall assign and clearly label each waste receptacle and designated area at the facility to indicate its contents.
- 5.10 Processed waste shall be packaged and stored on pallets or in IBC bags or covered appropriately in the external yard temporarily before movement off site. The storage of processed waste will not exceed 1 week unless otherwise agreed with Fingal County Council.
- 5.11 The permit holder shall ensure that all wastes shall only be accepted at the facility from known customers or new customers subject to initial waste profiling and waste characterisation off-site. The written records of this off-site waste profiling and characterisation shall be retained by the permit holder for all active customers and for a two-year period following termination of permit holder/customer agreements. This list must be submitted on receipt of this permit.
- 5.12 The permit holder shall establish and maintain detailed written procedures for the acceptance and handling of all wastes permitted at the facility as developed under Condition 2.8 (c).
- 5.13 The facility shall be kept in a clean and tidy condition.
- 5.14 The floor of the indoor facilities shall be swept regularly and cleared of all waste on a daily basis unless otherwise agreed with Fingal County Council.
- 5.15 All waste stored in the quarantine area shall be removed at the earliest possible time or as agreed under Condition 2.8 of this permit.

Waste Processing

- 5.16 The permit holder shall ensure that the quantity of waste to be accepted at the site on a daily basis subject to condition 5.3 shall not exceed the duty capacity of the equipment at the site. Any exceedences of this intake shall be treated as an incident.
- 5.17 The permit holder shall submit a written proposal to Fingal County Council, for agreement on any proposed new waste processing procedure, along with relevant details prior to any such processes or associated works being carried out.
- 5.18 No processing of batteries is permitted at the facility.

Waste Movement to the facility

5.19 All waste hauled to the site for recovery shall be conveyed by an authorised waste collection permit holder in accordance with the Waste Management (Collection Permit) Regulations, 2007 (S.I. 820 of 2007) as amended by the Waste Management (Collection Permit) (Amendment) Regulations, 2008 (S.I. 87 of 2008).

Waste Movement from the facility

5.20 Waste sent off-site for recovery, recycling, or disposal shall be transported only by an authorised waste collector in accordance with the Waste Management (Collection Permit) Regulations, 2007 (S.I. 820 of 2007) as amended by the Waste Management (Collection Permit) (Amendment) Regulations, 2008 (S.I. 87 of 2008). The waste shall be transported only from the site of the activity to the site of recovery, recycling or disposal in a manner which will not adversely affect the environment and in accordance with the appropriate National and European legislation and protocols.

REASON:	To provide for the acceptance and management of wastes authorised under this permit
---------	---

CONDITION 6: ENVIRONMENTAL PROTECTION AND EMISSIONS MONITORING

Environmental Protection

- 6.1 The permit holder shall be liable for all costs incurred in carrying out any monitoring under this permit.
- 6.2 The frequency, sampling and analyses, as set out in this permit may be amended with the agreement or direction of Fingal County Council following evaluation of test results.
- 6.3 All fuel oils and fluids shall be stored and handled in a secure paved and bunded area.
- 6.4 Surface water drains should carry only uncontaminated rainwater from roofs and clean yard surfaces to a watercourse;
- 6.5 Suitable measures should be taken to minimise the risk of spillages and accidents, particularly when handling materials and fuels;
- 6.6 All oil storage tanks and fuel storage tanks must be placed within a bund area capable of retaining 110% of the volume of the largest tank. Drainage from bunded areas must be collected and disposed of in a safe manner;
- 6.7 If so requested by Fingal County Council, the permit holder shall, at his own expense, carry out such further investigations and monitoring of the facility as required by Fingal County Council. The scope, detail and programme including report structure and report schedule, for any such investigations and monitoring shall be in accordance with any written instructions issued by the County Council.
- 6.8 In the event that monitoring, sampling or observations indicate that an incident of pollution has taken place or may have taken place, remedial measures shall be carried out immediately as directed by Fingal County Council.
- 6.9 In the event of surface water pollution arising from the site, a representative from Fingal County Council may sample the outlet from the interceptor to ensure compliance with water pollution control measures, at a cost of €205 per sample collected by the Fingal County Council representative to cover the cost of the sample collection and chemical analysis. The permit holder shall ensure that there is no direct emissions to groundwater and surface water

Water Pollution Control

- 6.10 The permit holder shall have at all times, in designated storage areas and in particular at the designated storage area for waste batteries under Condition 5.8, store an adequate supply of containment booms and/or suitable absorbent material for the waste stored, in order to contain and absorb any spillage at the facility. Once used the absorbent material shall be disposed of at an appropriate facility.

Nuisance/Pest Control

- 6.11 The permit holder shall maintain sufficient and continuous pest control to eradicate vermin and fly infestations at the site. A register of pest control inspections and actions shall be maintained.

Emissions

- 6.12 The permit holder shall take preventative measures to ensure that the activity does not result in unreasonable noise, fumes, contaminated surface water, dust, grit, untidiness and other nuisances, which would result in the impairment of, or significant interference with, the amenities or the environment beyond the site boundary. If unacceptable levels occur, as

defined by the relevant standards, the Permit holder shall abide by the Local Authority's abatement requirements, which may include immediate cessation of operations.

Noise Emissions

6.13 A programme of noise monitoring shall be carried out by the developer in a manner and at locations adjacent to the site boundaries as per the requirements of the planning authority.

Air Pollution Control

6.14 All emissions to air, other than steam or water vapour, should be colourless and free from visible mist. All emissions should be free from offensive odour outside the process boundary, as determined by Fingal County Council.

6.15 The permit holder shall carry out dust monitoring at the site bi-annually. A proposal for dust monitoring using the standard Bergerhoff Method VD12119 shall be submitted to Fingal County Council for consideration and agreement within 2 months of the date of grant of this permit.

6.16 A drawing indicating the location of two dust monitoring points as per Condition 6.14 shall be submitted to Fingal County Council for consideration and agreement within 2 months of the date of grant of this permit. The permit holder at his own expense shall arrange for monitoring (during normal operational hours).

6.17 Dust deposition shall not exceed 350mg/m²/day, averaged over 30 days, when measured at the two dust monitoring points established under condition 6.15. The permit holder shall at his own expense arrange, with an independent consultant, for monitoring of dust levels, twice per year (during the period May to September) and submit written reports to Fingal County Council within 1 month following such monitoring as per Condition 3.6.

6.18 All direct and indirect emissions to the atmosphere, including odours, shall be controlled to ensure that they do not:

- (i) Result in injury to health
- (ii) Have a deleterious effect on flora or fauna or cause damage to property
- (iii) Impair or interfere with amenities or with the environment

The permit holder at his own expense shall arrange for monitoring (during normal operational hours) if so requested by Fingal County Council.

Odour Control

6.19 No emissions, including odours, from the activities carried on at the site shall result in an impairment of, or an interference with amenities or the environment beyond the facility boundary.

6.20 Any waste displaying significant malodours shall be removed from the facility as soon as possible. The permit holder will identify the source of the offending waste and take appropriate measures to ensure that such offending waste is not accepted at the facility in the future.

6.21 The operator shall;

- (i) if notified by Fingal County Council that the activities are giving rise to annoyance outside the site due to odour, submit to Fingal County Council for approval with the specified period, an odour management plan;
- (ii) implement the approved odour management plan, from the date of approval, unless otherwise agreed in writing by Fingal County Council.

Surface Water Emissions

6.22 The quarantine area shall be paved and banded.

Groundwater

6.23 The permit holder shall ensure that there are no direct emissions to groundwater.

REASON: To provide for the control of nuisances and emissions from the facility and ensure compliance with the requirements of other conditions of this permit by provision of a satisfactory system of measurement and monitoring of emissions

CONDITION 7: ACCIDENT PREVENTION AND EMERGENCY RESPONSE

- 7.1 The permit holder shall ensure that a documented Accident Prevention Policy is in place which will address the hazards on-site, particularly in relation to the prevention of accidents with a possible impact on the environment. This procedure shall be reviewed annually and updated as necessary.
- 7.2 The permit holder shall undertake a risk assessment and ensure that a documented Emergency Response Procedure (ERP) is in place, which shall consider and address any emergency situation which may originate on site. The procedure shall include provision for minimising the effects of any emergency on the environment. This procedure shall be reviewed annually as per condition 3.9(t) and updated as necessary. The permit holder shall consult with the Fire Authority (Dublin Fire Brigade) and seek their approval when preparing the ERP and submit in writing to Fingal County Council. In particular the procedure shall include details of:
- (a) actions to be taken in the event of an incident;
 - (b) firefighting and water retention facilities;
 - (c) warning systems;
 - (d) preventative measures;
 - (e) assembly points;
 - (f) responsible persons, training and equipment requirements and bodies to be notified following an incident.
- 7.3 The permit holder shall ensure that all significant spillages occurring at the facility shall be treated as an emergency and immediately cleaned up and dealt with so as to alleviate their effects.
- 7.4 No waste shall be burnt within the boundaries of the facility.
- 7.5 In the event of a breakdown of equipment or any other occurrence, which results in the closure of the facility, any waste arriving at or already collected at the facility shall be transferred to an appropriate facility until such time as the facility is returned to a fully operational status unless otherwise agreed with Fingal County Council. Such a breakdown event will be treated as an emergency and rectified as soon as possible.
- 7.6 Adequate fire extinguishers and emergency response equipment shall be maintained at the facility following consultation with the Fire Service Department. A fire at the facility shall be treated as an emergency and immediate action shall be taken to extinguish it and notify the appropriate authorities.
- 7.7 Within 2 months of the date of grant of this permit, the permit holder shall prepare and submit for the approval of Fingal County Council, a fire risk assessment of the facility. The fire risk assessment shall contain the following information:
- a. the risk of fire relating to de-pollution activities and storage of oils/fluids;
 - b. the risk of fire relating to storage of tyres, gas cylinders, batteries and other flammable materials;
 - c. the risk of fire directly relating to the tonnage of end-of-life tyres to be stored at the facility;
 - d. installations and equipment necessary to prevent fire spreading at the facility.

7.8 Within 3 months of the date of grant of this permit the permit holder shall submit a Fire Certificate issued by the Fire Authority which covers the waste activity at the facility and which satisfies this condition.

REASON: To provide for an emergency situation at the facility

CONDITION 8: CHARGES AND FINANCIAL PROVISIONS

Annual Fees

- 8.1 The permit holder shall pay to Fingal County Council an annual contribution of **€1,600** per annum, or such sum as Fingal County Council determines from time to time, having regard to variations in the extent of reporting, auditing, inspection, sampling and analysis or other functions carried out by the local authority. This cost shall be paid towards the cost of administering the facility permit and monitoring the activity as the local authority considers necessary for the performance of its functions under the Waste Management (Facility Permit and Registration) Regulations 2007, as amended.
- 8.2 The first annual payment shall be **€400** for the period from the date of grant of this permit to the 31st day of December, and shall be paid to the local authority within one month from the date of grant of the permit.
- 8.3 In subsequent years the permit holder shall pay to the local authority such revised annual contribution as the local authority shall determine to enable performance by the local authority of its relevant functions under the Waste Management (Facility Permit and Registration) Regulations 2007, as amended and all such payments shall be made within one month of the date upon which demanded by the local authority.

Environmental Liabilities and Financial Provisions

- 8.4 Prior to the commencement of works and waste activities on site the Permit Holder shall lodge with Fingal County Council a cash deposit of **€10,000** or an equivalent bond or other approved financial provision as a security for the satisfactory compliance by the Permit Holder with the terms and conditions attached to this permit. In the event of non-compliance by the Permit Holder with any terms or conditions attached to this permit Fingal County Council shall be empowered to apply the said funds or part thereof for the satisfactory compliance with the terms and conditions attached to this permit as necessary. Any amount not so used by the Council will be released to the Permit Holder when all activities on site have ceased and the Permit Holder has fully complied with the terms and conditions attached to the permit to the satisfaction of Fingal County Council.
- 8.5 The permit holder shall effect and maintain a policy of insurance insuring him or her as respects any liability on his or her part to pay any damages or costs on account of injury to persons or property arising from the activities concerned or for remedial actions following anticipated events (including closure) or accidents/incidents, as may be associated with the carrying on of the activity. The level of financial provision for unknown environmental liabilities shall be calculated using the EPA document "Guidance on Assessing and Costing Environmental Liabilities" (EPA 2014) and "Guidance on Financial Provision for Environmental Liabilities" (EPA 2015).
- 8.6 All insurance policies shall be extended to indemnify Fingal County Council in respect of all claims, losses, damages arising out of injury to any person or loss of or damage to any property whatsoever caused by or in connection with the operation and management of the facility. The permit will be automatically revoked if any part of the insurance is either removed or not renewed.
- 8.7 The permit holder shall submit copies of the insurance policies to Fingal County Council within 1 month of grant of this permit and annually thereafter at renewal date.

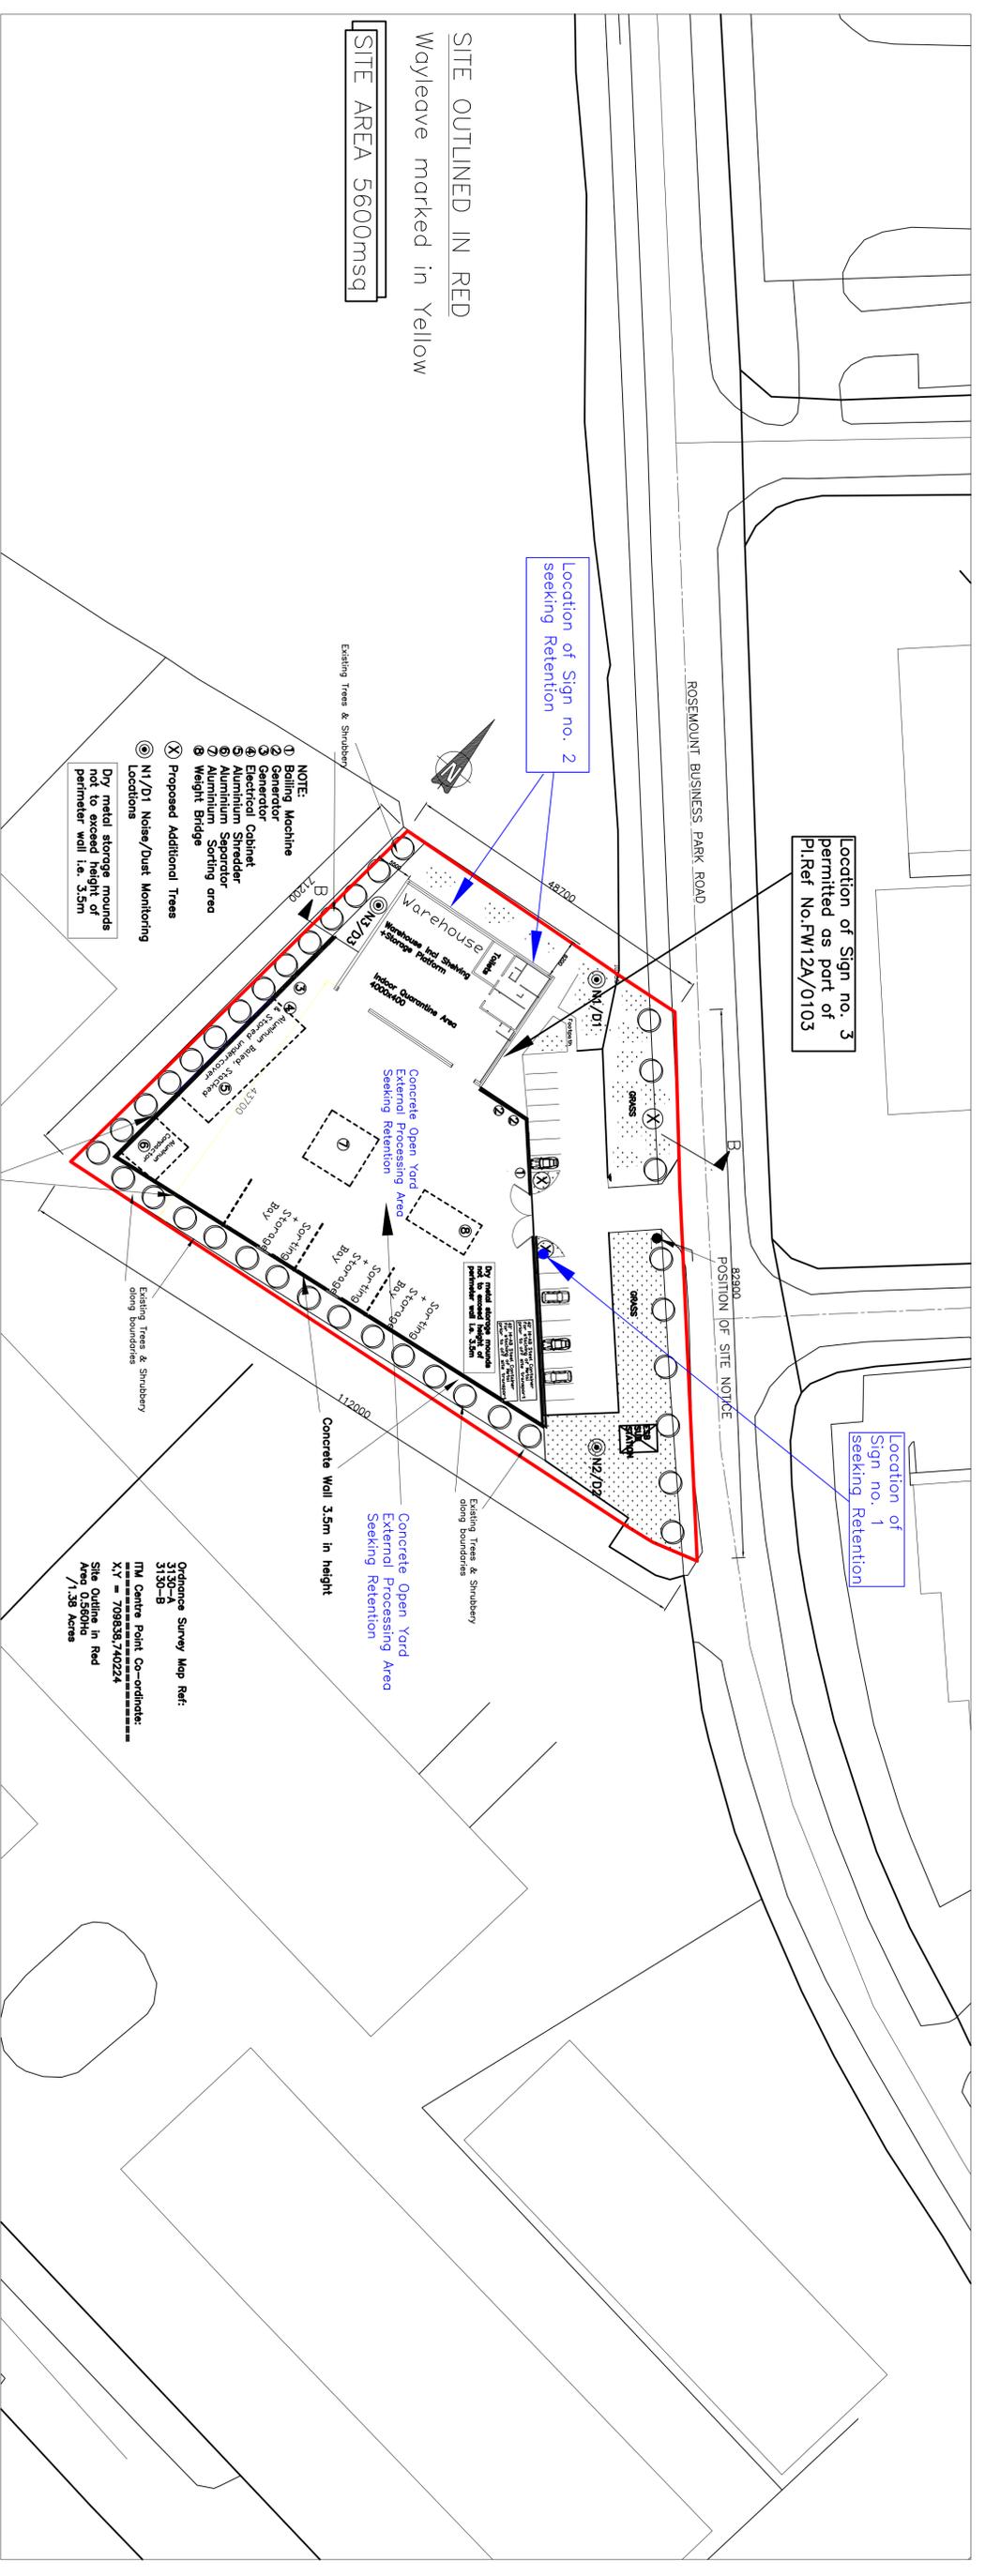

CONDITION 9: DECOMMISSION AND AFTERCARE

Cessation of Operations

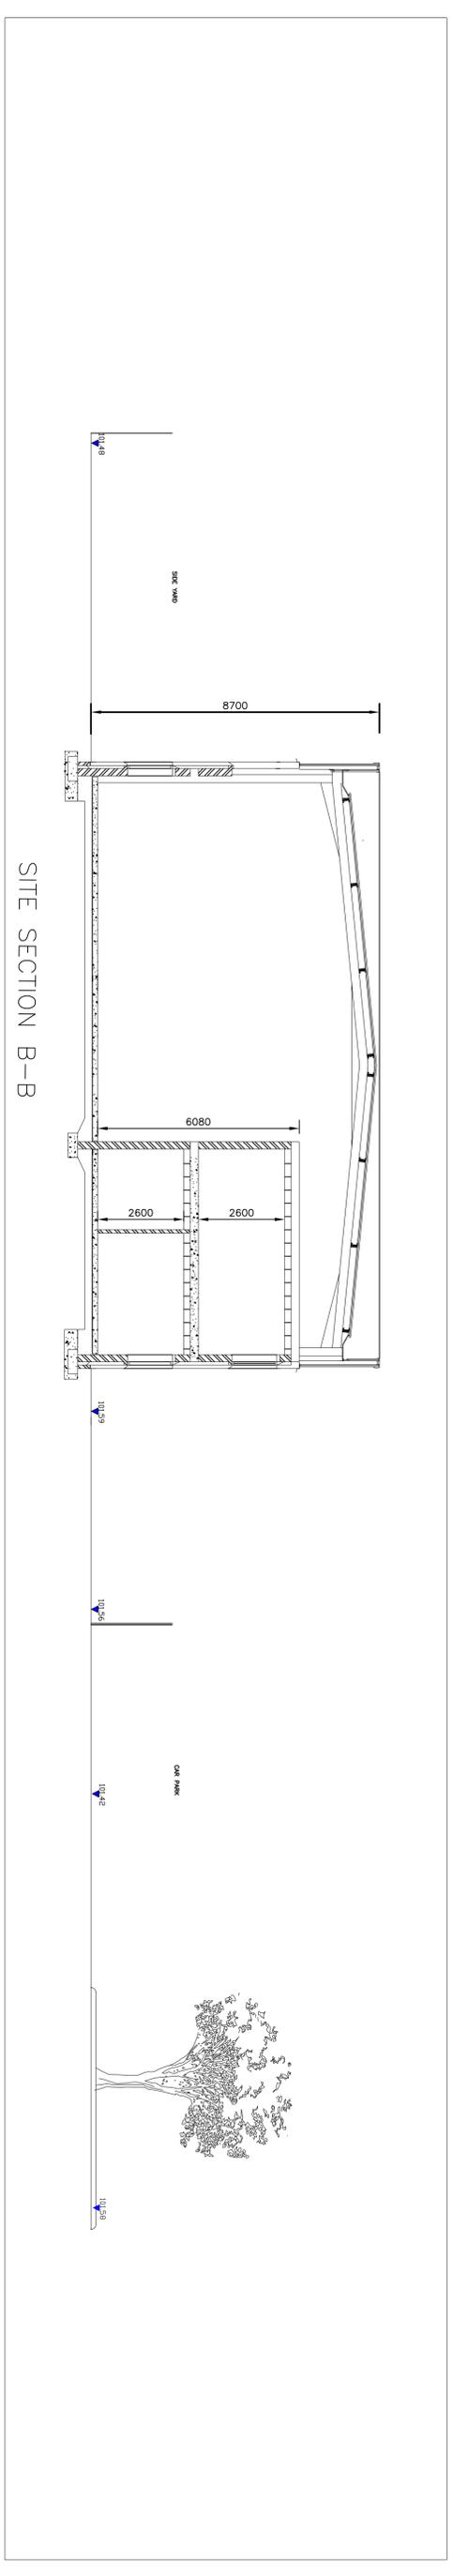

- 9.1 Following termination, or planned cessation for a period greater than six months, of use or involvement of all or part of the site in the authorised activity, the permit holder shall, to the satisfaction of Fingal County Council decommission, render safe or remove for disposal/recovery any soil, subsoil, buildings, plant or equipment, or any waste, materials or substances or other matter contained therein or thereon, that may result in environmental pollution. The permit holder shall carry out such tests, investigation or submit certification, as requested by Fingal County Council to confirm that there is no risk to the environment.
- 9.2 The Permit Holder shall prepare a proposal for a decommissioning and aftercare plan for the facility and the permit holder shall submit the plan to the local authority three months prior to the ceasing of activities at this facility unless otherwise agreed in writing by the local authority.
- 9.3 The Permit Holder shall decommission and restore the site as per the approved Decommissioning and Aftercare Plan within 3 months of the ceasing of activities at this facility unless otherwise agreed in writing with the Local Authority.

REASON:	To provide for the decommissioning and aftercare of the facility
